FORESTRY MANAGEMENT STUDY
March 13, 2015
The team from the Institute of the Environment, University of Balamand, in collaboration with Spanish experts from the University of Lleida conducted a number of field visits to Bkessine and Andik forests on March 13, 2015. Field visits to both sites included the collection of measurements from a large number of plots located within forested areas for the development of forest inventories and the eventual forest management plans.
